MEASURES OF DEPARTMENTAL PERFORMANCE

Greetings from MoDOT

Dave Nichols
MoDOT Director

Mission

Our mission is to provide a world-class transportation experience that delights our customers and promotes a prosperous Missouri.

For more than two years now, we have enjoyed a robust discussion with our customers about the importance of transportation in Missouri. And we've seen our customer satisfaction numbers climb to 85 percent – exceptionally high marks for any company but unheard of for a government agency. A big reason is MoDOT's commitment to full transparency and accountability in its business of preserving, managing and developing our transportation system.

It's our belief that you have a right to see how we are performing and we want you to know what we are doing well and where we need to improve. Now in its ninth year, the Tracker has been one way that Missourians can hold us accountable for delivering the most efficient and practical transportation services possible.

Missouri depends on a safe and reliable transportation system for the commerce and mobility to support economic stability and job growth. You have high expectations of us and we want to exceed those expectations. You expect us to keep the good roads maintained and safe and to fix bad roads and bridges. Most importantly, you expect us to get the absolute best value out of every tax dollar we spend. We share your expectations.

We have taken extreme measures to squeeze every dollar we can out of our operating costs to put every possible dollar back on to our system of roads and bridges. The Bolder Five-Year Direction, practical design, practical operations and a commitment to radical cost control are all examples.

But that won't be enough going forward as our construction budget continues to fall. We can't cut our way to a solution for this funding problem. The fuel tax method of funding transportation has become a diminishing revenue stream as vehicles become more and more fuel efficient. Missourians need to decide what kind of transportation system they want and how they are willing to pay for it.

We have built the Tracker around seven Tangible Results. These results are outcomes that you expect to see and they guide us in making decisions every day. The performance measures in the Tracker are designed to help us focus on the progress we are making to achieve these results.

The Tracker is published quarterly to ensure accountability and to allow you to see how we are measuring up. It is available in a printed format and on our website at www.modot.org. We encourage you to look it over and let us know how we are doing.
