

# StripeMaster 71000-1 Retroreflectometer

1-090325CN

25-Mar-09

**The Hoosier Co, Inc**

ITEM:	DESCRIPTION:	EST QTY:	
1	StripeMaster 71000-1 Retroreflectometer that measures pavement markings as per ASTM E1710 and En 1436, 30 meter retro reflection measurement geometry requirements. Unit must be microprocessor-controlled calibration and auto-zero. It is important that recalibration does not have to take place after calibrating inside and taking it outside (ambient light will not affect readings). Unit must also have a manufacturer standard stabilizer for rough surface conditions. Calibration must be of the same readings as our existing units for uniformity of readings. Unit must come with all manufacturer standard features including, but not limited to, retroreflectometer, carrying case, calibration test plates, battery charger, user manual, spare battery pack, PC Interface software, removable wheels	2	\$ 35,784.00
2	Vehicle Charger	2	\$ 228.00
3	Extra NIMH Battery	2	\$ 156.00
4	Trickle Charger	2	\$ 180.00
5	8 Hour Training Class, including Manuals	2	N/C
<b>TOTALS:</b>			<b>\$ 36,348.00</b>

**AWARD: Please award to The Hoosier Company Inc as they were apparent low responsive bidder**
