Follow-Up Questions Submitted/Answers

1. The current Missouri State Business and Program Plan for CVISN includes two documents, each with its own separate Table of Contents. The State Business Plan for ITS/CVO appears to meet FMCSA's general requirements for ITS/CVO Business Plan Documents. The ITS/CVO Program Plan document appears to meet FMCSA's general requirements for a Core CVISN Program Plan and Top level Design Document. Is the RFP requesting that both of these "subdocuments" be updated, or only the State Business Plan for ITS / CVO portion of the document? The RFP is for the State Business Plan only.

2. If both documents should be updated, is it MoDOT's intent that the full updated document would serve as the state's Expanded CVISN Plan, or is the intent that the updated document would guide and inform a subsequent Expanded CVISN planning effort? It is the intent that the updated State Business Plan would guide Missouri in its subsequent Expanded CVISN planning effort since we have completed core deployment.
