

# 2016 Sales & Marketing COMMUNICATIONS

COMM: 028-2016

TO: U.S. & Canada Dealer Principals, General Managers

FROM: Jason Hardy, Vice President, Commercial Operations

TOPIC: Mack Announces Surcharge for EPA 2017 Engine Family

DATE: April 12, 2016

TAB: Corporate Bulletins

Mack Trucks will soon release the details of its Mack® MP® engine family certified to the U.S. EPA's new greenhouse gas standards for 2017 (GHG17). This new evolution of the MP series is designed to improve performance and fuel economy.

All EPA 2017 MP7, MP8 and MP10 engines will be subject to a \$750 emission surcharge. The surcharge will be a net-billed item applied to all orders with EPA 2017 engines.
