

Union Road Bridge Project

Construction Actions:

- **Two Weekend closures of Interstate 55.** The detour for the closures will span from Interstate 44 to Interstate 270 and are necessary for the demolition of the side-by-side Union Road bridges and the pedestrian bridge north of Delor. Interstate 55 will be closed from Reavis Barracks to Bayless for the Union bridge demolition and will be closed from Bates to South Broadway for the pedestrian bridge demolition north of Delor.
- **Closure of Union Road between Spring and Hoffmeister Road.** The bridges on Union Road over Interstate 55 must be replaced because of their poor structural condition. The new bridges will be built in the same location as the existing bridges; however, the new bridges will have a higher clearance over Interstate 55 and a pedestrian sidewalk on the south side of the bridge. During this closure, traffic will be detoured to Reavis Barracks or Bayless Roads.
- **Phased closure of the northbound Interstate 55 on-ramp from Union Road.** During some phases of the Union Road bridge construction, the northbound Interstate 55 on-ramp may have to be closed to traffic.
- **Closure of the pedestrian bridge north of Holly Hills during construction.** The Holly Hills pedestrian bridge will be upgraded to include Americans with Disabilities Act (ADA) accessible access. During this construction, the bridge will be closed to pedestrian traffic.
